All prices plus the currently valid VAT.

*1 = in the first year plus 20% handling fee

*2 = Please note the remark

*3 = Ordinary membership with seat in the Steering Committee

General information on the ECLASS price overview

1 Obtaining licenses via ECLASS Shop

All prices refer to releases **in all available languages** and **all export formats** (BASIC and ADVANCED (since ECLASS 7.0), CSV and XML (since ECLASS 7.0)). All available releases are listed in the [ECLASS Technical Support](#).

To purchase an ECLASS license – independent of the license type – a registration and order via the [ECLASS Shop](#) are necessary. A license is valid for the registered company and all its >50% subsidiary companies. The calculation of cost is based on the number of employees including all >50% subsidiaries.

1.1 Single License

Contains **one release** (e. g. ECLASS 11.1) **in all languages and export formats**.

1.2 Concordance License

Contains **all already published** as well as **all releases to be published during the Concordance runtime in all languages** as well as **all available ECLASS Update Files**. The minimum runtime is three years and will be automatically extended by one year if it is not canceled three months before the end of the contract.

In the first year a fee of 20% is charged in addition to the annual amount.

2 Update Files (former “Mapping tables”)

Contain the available information to update from a source release (e. g. ECLASS 10.1) to a target release (e. g. ECLASS 11.1). Apart from the Update Files, both the source release and the target release are needed for the update.

3 Membership

Supporting members receive **50% discount on all products**.

All Ordinary ECLASS members receive all releases in all languages as well as all available Update Files within the framework of their membership **free of charge**.

For tax recognized non-profit organizations, we offer a **discount of 50%** on all membership fees.

ECLASS members profit from [further benefits](#).

4 Use of the ECLASS Webservice

To obtain IRDIs via the ECLASS Webservice, the user must be properly authenticated for the ECLASS Webservice and his information must be complete and correct. For authentication, a certificate is required which can be requested via the ECLASS Shop and is issued by the ECLASS Head Office. In case of non-payment of a Webservice invoice the Webservice certificate becomes invalid. The ECLASS Terms of Use apply.

4.1 In case the duration of the certificate is at least 3 years, it will be charged 250 EUR per year. The term is automatically extended by one year at a time unless the certificate is terminated three months before the end of the contract.

If the certificate has a duration of one year, it will be charged 400 EUR. After the end of the year the certificate becomes invalid.

4.2 You can obtain individual IRDIs through the ECLASS Webservice. The price **per IRDI access** is 0.05 € (net). License costs are calculated per IRDI **at each access**.

Since structural elements have the same IRDI across all languages, the fee for accessing an IRDI in several languages is calculated only once per access.

4.3 For Ordinary members and Concordance Licensees, this service is **free of charge**.

5 Obtaining ECLASS for research and educational purposes (Use at colleges and universities (of applied science))

For research and educational purposes, the current ECLASS Release is offered for free of charge download via our Shop.

The use of the Webservice for research and educational purposes is also free of charge. In both cases please contact the [ECLASS Head Office](#).

6 Determination of the company size

Licensee is the registered company including all >50% subsidiaries.
